1. Abstract

Sigma Token (SGT) is a BEP-20 digital token on BNB Smart Chain with a fixed supply of **100,000 SGT**. Sigma connects a community-driven token economy with a real-world **coal mining** business vision. Buyers acquire SGT with USDT, stake it automatically for 90 days, earn daily staking rewards, and can grow a team through a 25-level referral program paid in USDT. The token sale runs in two stages, a Pre-sale ending **31 December 2026** and an ICO, followed by a public listing on a decentralised exchange (DEX) on **8 July 2027**.

2. The Problem & Our Vision

Mining is one of the oldest and most capital-intensive industries in the world. Funding is usually limited to large institutions, and ordinary people have no simple way to take part in or follow the growth of a mining business. Blockchain makes participation open, transparent and borderless.

Vision: build a transparent digital ecosystem around a coal mining operation, where the community can take part through SGT, all sale rules are enforced by public smart contracts, and every transaction can be checked on BscScan.

3. Coal Mining Business

Coal remains a key energy source for power generation, steel production and industry in many countries. Sigma's plan is to use part of the funds raised to support coal mining activity, covering:

- Exploration and site assessment
- Mining equipment and machinery
- Extraction, processing and transport
- Safety, environmental compliance and land restoration
- Sales partnerships with power plants and industrial buyers

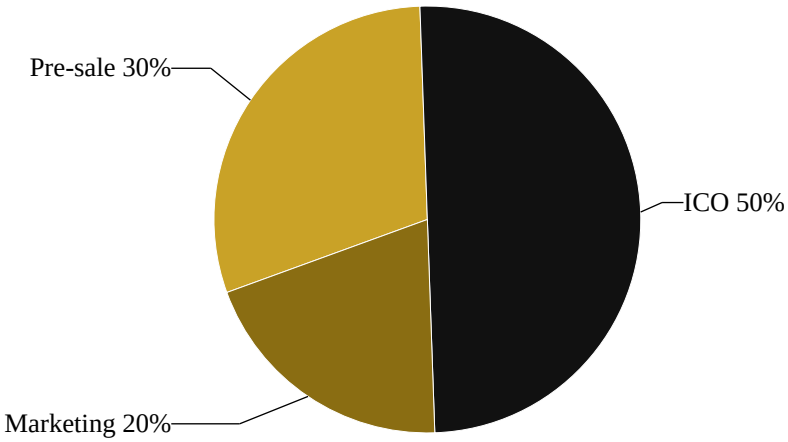
Details of mine locations, licences and partners will be published on the official website as they are finalised. Holders should only rely on information published through official Sigma channels.

4. Sigma Token

Item	Detail
Name	Sigma Token
Symbol	SGT
Network	BNB Smart Chain (BEP-20)
Decimals	18
Total supply	100,000 SGT (fixed, no further minting)

Item	Detail
Payment currency	USDT (BEP-20)
Starting price	1 USDT per SGT
Price model	Rises with each buy, falls with each sell

5. Tokenomics



Allocation	Share	SGT	Purpose
Pre-sale	30%	30,000	Early supporters, until 31 Dec 2026
ICO	50%	50,000	Main public sale, before DEX launch
Marketing	20%	20,000	Promotion, partnerships, community, awards
Total	100%	100,000	

SGT for staking rewards is paid from the token pool funded into the sale contract. Any unsold Pre-sale tokens roll over into the ICO.

6. Token Sale

Stage	Period	Allocation
Pre-sale	Now – 31 December 2026	30,000 SGT
ICO	1 January 2027 – before DEX launch	50,000 SGT
DEX launch	8 July 2027	Public trading

- Buy with USDT (BEP-20): minimum 10 USDT, maximum 20 USDT per purchase
- Price starts at 1 USDT and moves with demand: each buy raises it and each sell lowers it
- 100% of buy USDT goes directly to the project treasury wallet
- Connect with MetaMask, Trust Wallet or any BSC-compatible wallet

7. Staking

- Every purchase is staked automatically
- Lock period: 90 days for each purchase

- Reward: 0.5% per day on staked SGT, claimable any time
- After 90 days the SGT can be unstaked and sold back at the current price

8. Referral Program

Commission is paid in USDT on every purchase made by your team, up to 25 levels deep, and can be withdrawn any time.

Level	Commission
Level 1	10%
Level 2	5%
Level 3	3%
Levels 4 – 10	2% each
Levels 11 – 25	1% each

9. Awards & Rewards

Team business (USDT)	Award
2,000 USDT	LED TV 32 inch
5,000 USDT	EV Scooter

Team business is the total USDT bought by your whole team across all 25 levels, tracked on-chain. Physical awards are delivered by the Sigma team after verification.

10. Smart Contracts & Security

- Built with audited OpenZeppelin libraries: SafeERC20, ReentrancyGuard, Pausable, Ownable
- Fixed supply token: no minting function exists
- All rules (limits, price, lock, commissions) are enforced on-chain
- Contracts verified on BscScan for public review
- Emergency pause available to the owner

11. Roadmap & Plan

Phase	Timeline	Milestones
Phase 1 – Foundation	Q4 2026	Smart contracts, website, community launch, Pre-sale starts
Phase 2 – Pre-sale	until 31 Dec 2026	30% allocation sold, referral & staking live, marketing campaign
Phase 3 – ICO	Jan – Jun 2027	50% allocation, partnerships, coal mining site work begins, awards delivered
Phase 4 – DEX launch	8 July 2027	Listing on a DEX with liquidity, public trading
Phase 5 – Growth	H2 2027 onward	Mining operations update reports, exchange listings, ecosystem expansion

12. Treasury & Use of Funds

All USDT from purchases is received in the project treasury wallet. Referral commissions and sell-backs are paid from this wallet. Funds are planned for:

- Coal mining operations and equipment
- DEX liquidity for the 8 July 2027 launch
- Marketing, community and awards
- Development, security and operations

13. Risks

- Crypto prices are volatile; the value of SGT can go down as well as up
- Staking rewards and referral payouts depend on available token and USDT funds
- Mining projects carry operational, regulatory and market risks
- Smart contracts can contain bugs despite best practices
- Laws on token sales and referral programs differ by country and may change
